

Collaboration Café

Watery Places

Join us at our forthcoming
Collaboration Café hosted
by the Centre for Social
Responsibility (CSR) at Edge
Hill University.

Friday 26th June 2026

10:30AM - 14:30PM

B003 Business School

Edge Hill University

The theme for our June Café is 'Watery Places' which we will explore from a variety of disciplines and viewpoints. It draws together learning from previous Collaboration Cafés on Asset Based Community Working, and Community Responses to Flooding, and takes this in new directions. You don't need to have attended previous Cafés to be very welcome at this one.

The event is designed to inspire, facilitate dialogue and generate ideas for research and collaboration. The first half of the event follows our usual format: several short, engaging presentations followed by table discussions. We will then have lunch which will be followed by a creative workshop led by Dr. Philippa Holloway which will encourage us to think imaginatively about our relationships with water.

Please book here:
